

## Guidelines in Preparing for and Conducting Level III, Phase 2 Evaluation

These Guidelines are designed to help the SUCs prepare for and conduct Phase 2 evaluation.

### Section I.

Aside from passing the standards for Level III, a program must excel in, at least, four Areas as required under CHED Memo Order No. 1, s. of 2005. So a program that has passed Phase I of Level III Evaluation must satisfy this requirement to excel, i.e; in AACCUP's operational definition, "garnering a rating of at least 4.0".

You will identify these four (2 mandatory plus two other Areas of your choice) from the following

#### Undergraduate Program

##### Mandatory

1. Instruction (a reasonably high standard)
2. Extension (a highly visible community extension program)

Your choices from the following: (two areas only)

1. Research (a highly visible research tradition)
2. Faculty Development (limit to faculty development not "faculty". A strong faculty development tradition)
3. Licensure Exam (highly creditable performance of graduates in Licensure Examinations over the last three years, where applicable)
4. Consortia or Linkages (existence of consortia or linkages with other schools and/or agencies)
5. Library (extensive and functional library and other learning resources)
