

AACCUP TECHNICAL REVIEW and RECOMMENDED BOARD ACTION

SUC: Bicol University

Address: Legazpi City, Albay Region: V

College/Dept.: _____

Program: Master of Arts in Nursing

Type of Visit: 3rd Survey-Phase 2

Components/Majors:

Date of Survey: June 10-12, 2024

SUMMARY OF RATINGS:

Areas	Ratings
Mandatory:	
1. Instruction	4.00
2. Research	4.00
Options:	
3. Faculty Development	4.00
4. Library	4.00
Grand Mean	4.00

CRITERIA TO PASS THIS LEVEL:

Criteria	Mean Rating	Please Check		
1. Qualified in the Level IV, Phase 1 Evaluation		Yes	No	NA
- Minimum Grand Mean	4.50 or higher			
- Minimum Area Mean	4.00 or higher			
2. Qualified in the Level IV, Phase 2 Evaluation				
- Minimum Grand Mean	4.50 or higher			
- Minimum Area Mean	4.00 or higher			
3. Mandatory Recommendations				
- Complied with all Recommendations to be complied with before award of Level IV				
4. Substantially complied with all Recommendations made in Level IV, Phase I Evaluation				

RECOMMENDED BOARD ACTION:

Type of Award	Remarks	Effectivity or Date of Duration
Level II Re-accredited	☒ must comply with mandatory recommendations	July 1, 2024 – June 30, 2025
	subject to another revisit in the area/s of:	
	1. _____	
	2. _____	
	3. _____	

ACCREDITORS:

Name:	DR. SARAH S. TAUPAN
Academic Rank:	Professor VI
Field of Specialization:	Nursing, Public Administration
Highest Educational Attainment:	Doctor of Public Administration
Institution and Address:	Western Mindanao State University, Zamboanga City

Name:	DR. JOANNA C. PABILONA
Academic Rank:	Assistant Professor IV
Field of Specialization:	Nursing Education
Highest Educational Attainment:	PhD in Nursing (Candidate for Graduation- July 14, 2024)
Institution and Address:	West Visayas State University

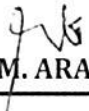

Name:	DR. NANCY F. GALBAN
Academic Rank:	Associate Professor IV
Field of Specialization:	Library Science, Management, Administration
Highest Educational Attainment:	Doctor of Philosophy major in Educational Administration
Institution and Address:	Don Mariano Marcos Memorial State University, Agoo, La Union

RECOMMENDATIONS TO THE INSTITUTION:

MANDATORY (to be complied with before the award)	ENHANCEMENT (may be complied with after the award)
	INSTRUCTION
Expedite the process of securing the Certificate of Program Compliance (COPC) from CHED.	1. Conduct a follow-up comprehensive tracer study to include the following: a. Career mobility; b. Employer's feedback on the performance of the graduates; c. Parameters that would measure attainment of program objectives; d. Awards and recognition received by the graduates in their place of work; e. Employability trends; f. Compilation on the success stories of the graduates; and g. Report of Model alumni.
	2. More instructional materials may be produced and submit them for ISBN, patents, and copyrights.
	3. Strengthen national and international linkages for exchange of instructional materials and resources.
	RESEARCH
	1. Research outputs of students or faculty-student collaborative research must be published in Scopus indexed journals.
	2. Consider creation of Research Journal for the BUCN.
	3. Enhanced acquisition for externally funded-research especially for national and international possibilities.
	4. Regular participation in research fora, conferences, and summit with presentation of impactful studies.

	FACULTY DEVELOPMENT
	1. Strategic fiscal planning for faculty development towards obtaining international scholarships, research grants and scientific exchange program.
	LIBRARY
	1. The BU Procedural/Library Manual should be immediately approved by the BOR that includes new Normal policies, Disaster Risk Reduction and Management, Museum and Archives procedures and policies based on NAP Gen. Circular 1 & 2 & GRDS 2009, and maker's space and learning commons.
	2. Membership in organizations can provide access to specialized resources and up-to-date medical information, crucial for supporting healthcare professionals effectively. Thus, it is highly suggested for librarians to join medical library organizations which can empower them to better serve their communities, advance their careers, and positively impact healthcare outcomes.
	3. To meet the 20% of the recency of core and professional collections copyright within the last 5 years, the administration of the college and the library establish a continuous strategy for the Nursing program.
	4. The BULS needs to create a space that will support the academic endeavors of faculty members and foster a sense of community and collaboration among them.
	5. To promote active engagement with the academic community, it is highly suggested that the library provides opportunity to celebrate, recognize, and promote the value of libraries and the professionals during Library and Information Services Month.
	6. Library administration may regard collaboration/consortium activities with other universities as a necessary component of improving journal access and supporting students with their research initiatives.
	7. Implementing an online version of the existing BU Library System is strongly recommended to enhance the accessibility and utilization of the university's resources. Making the library system available online would allow students, faculty, and staff to access a wide range of resources remotely, facilitating research and study from anywhere at any time.
